Seminar & Presentation

- **Date:** 27 January 2021
- **Number of student participated:** 34
- **Aim of the Seminar Presentation:** We have taken this activity for students because most of the students lack the confidence and fluency while interacting verbally. Coming either from rural or sub-urban background, many students hold good academic record and industrial skills but lack behind while expressing themselves. This small yet major drawback often hinders the achievements of students while campus placements. Discussing about relevant topics of the particular subject students tend to learn about the latest information and new skills related to the concern subject. Talking and learning about a new topic will encourage the students to explore new areas relevant to the topic.
